Product description

High quality, effective tool to loosen pressed connections.

Applications

Crankshafts
Fasteners (screws, bolts and nuts)

Product characteristics

Very effective
Directed jetspray
Briefly decreases the temperature to -50°C
360° valve

Physical and Chemical Characteristics

Contents	:	500 ml
Basis	:	Propane / butane
VOC-content	:	100% w/w
Scent	:	Characteristic
Vapour pressure at 20°C	:	3,5 to 4,5 bar
Appearance	:	Icing

Usage

Before use, carefully read the directions on the packaging and act accordingly.

The aerosol should have room temperature.
Best processing temperature 5 to 30°C.
Before use, shake the aerosol.

Spray the connection to be treated by repeatedly, briefly pressing the nozzle. As a result of the fierce decrease in temperature, the connection can be loosened.
